

This U.S. Professor Imagined The World Without Muslims & Found Out The Most Surprising Results!

Ian Bremmer, a Political Scientist and a University professor highlighted an important point that overall, Muslims account for just 0.00625%. Moreover, he had a brilliant response to the meme. He actually imagined a world without Muslims and the post went viral in no time...

the professor, Ian Bremmer, highlighted all the inventions made by Muslims, right from toothbrushes to hospitals.

Without Muslims you wouldn't have:

Coffee

Cameras

Experimental Physics

Chess

Soap

Shampoo

Perfume/spirits

Irrigation

Crank-shaft, internal combustion engine, valves, pistons

Combination locks

Architectural innovation (pointed arch -European Gothic cathedrals adopted this technique as it made the building much stronger, rose windows, dome buildings, round towers, etc.)

Surgical instruments

Anesthesia

Windmill

Treatment of Cowpox

Fountain pen

Numbering system

Algebra/Trigonometry

Modern Cryptology

3 course meal (soup, meat/fish, fruit/nuts)

Crystal glasses

Carpets

Checks

Gardens used for beauty and meditation instead of for herbs and kitchen.

University

Optics
Music
Toothbrush
Hospitals
Bathing
Quilting
Mariner's Compass
Soft drinks
Pendulum
Braille
Cosmetics
Plastic surgery
Calligraphy
Manufacturing of paper and cloth

It was a Muslim who realized that light ENTERS our eyes, unlike the Greeks who thought we EMITTED rays, and so invented a camera from this discovery.

It was a Muslim who first tried to FLY in 852, even though it is the Wright Brothers who have taken the credit.

It was a Muslim by the name of Jabir ibn Hayyan who was known as the founder of modern Chemistry. He transformed alchemy into chemistry. He invented: distillation, purification, oxidation, evaporation, and filtration. He also discovered sulfuric and nitric acid.

It is a Muslim, by the name of Al-Jazari who is known as the father of robotics.

It was a Muslim who was the architect for Henry V's castle.

It was a Muslim who invented hollow needles to suck cataracts from eyes, a technique still used today.

It was a Muslim who actually discovered inoculation, not Jenner and Pasteur to treat cowpox. The West just brought it over from Turkey

It was Muslims who contributed much to mathematics like Algebra and Trigonometry, which was imported over to Europe 300 years later to Fibonacci and the rest.

It was Muslims who discovered that the Earth was round 500 years before Galileo did.

The list goes on.....
